

# Bank of East Asia

Chinatown, New York, NY

A new 10 story bank headquarters in the heart of Manhattan's Chinatown on Canal Street.

## Architect

Roger K. Diao Architects, Irvington, NY

## Client

Bank of East Asia, New York, NY

## Features

- 2-level underground bank vault
- 52,000 SF of executive and general offices
- retail bank floors and tenant space; a kitchen and dining area for the bank's 100 employees
- unique site logistics problems due to the fact that the former building's structural frame was providing lateral bracing for the adjacent buildings and the street vaults, as well as sharing common walls within the existing MTA subway line

## Services

Construction Management
