

# University of Medicine and Dentistry of New Jersey

## Biotech Research Laboratory Newark, NJ

Reconfiguration and renovation of the "A" Level medical research facility on UMDNJ's Newark campus.

### Architect

Architecture for Health, Science & Commerce, PC,  
Tarrytown, NY

### Client

University of Medicine and Dentistry of New Jersey,  
Newark, NJ

### Features

- 6,000 SF of new "wet" laboratory/research space with fume hoods
- 4,000 SF of new "dry" labs
- climate controlled storage areas
- tissue culture labs
- glasswash room
- faculty and graduate student offices

### Special Interests

State-of-the-art laboratories were created in response to UMDNJ's expanded mission in medical research, in an effort to recruit world renown researchers and faculty, in this case specifically in the areas of AIDS Research and Ophthalmology.

### Services

Construction Management
