Challenges

- selective demolition and asbestos removal working around two existing tenants
- existing tenant (Dentist on 18th floor) remained throughout construction. All MEP and egress was redesigned around occupied areas. Maintained 2 means of egress and 2 elevators plus all services at all times

Features

- façade restoration and construction of new entryways including custom steel storefront
- renovations to core including relocation of stairwells and construction of new elevator shaft
- innovative VRF (Variable Refrigerant Flow) HVAC system
- custom box-bay replacement windows
- fully integrated IT with Crestcon systems, iphone central for room control
- LEED certified
- custom built three tiered roof dunnage to house HVAC equipment
- creation of high end social spaces and restaurant “Jams” by star chef Jonathan Waxman
- fully irrigated living exterior wall at storefront and 3 levels of façade and guest entry
- reclaimed wood from old water tanks and barns used for paneling of guestroom walls and ceilings
